

The Concord Center

The Concord Center, LLC, is accepting applications for a one-year postdoctoral fellowship (with an option for a second year, to be determined mutually) beginning in Fall 2022. The Concord Center, founded by Dr. Jamie Micco and Dr. Benjamin Banister, is a group practice in Concord, MA, specializing in evidence-based treatments for mood and anxiety disorders, OCD, personality disorders, and related emotion dysregulation in children, adolescents, and young adults. Individual and group therapy services are provided using evidence-based modalities, with a focus on cognitive behavioral therapy (CBT), exposure and response prevention (ERP), and dialectical behavior therapy (DBT), among others. Qualified applicants will have specific training and expertise in evidence-based treatments and seek to strengthen their experience working with children and adolescents.

The fellow will receive supervised experience providing evidence-based treatments across the lifespan in individual and group treatment. Specific training components include:

- One hour of individual supervision in CBT and DBT per week
- One hour of group supervision in CBT per week
- Weekly group case consultation meetings
- Weekly didactic seminar on topics relevant to CBT, DBT, and other specialized empirically supported treatments
- Stipend towards structured trainings and certifications, depending on the fellow's goals for specialization
- Additional opportunities are available depending on the interest of the fellow, including co-supervision of practicum students, engagement in outcome research, community outreach, participation in committee work, writing projects, or speaking opportunities.

Benefits include:

- Highly competitive salary
- Health, dental, and vision insurance
- 401(k) retirement plan
- Paid professional liability insurance
- Ample paid time off
- Strong referral stream (existing practice waitlist and high demand)
- Bright, fully furnished, and newly renovated office space
- Flexible clinician scheduling (e.g., no requirement to work weekends; work-life balance is valued)
- Stipend for training and continuing education opportunities
- Collegial, supportive work environment
- Opportunity for post-licensure employment at The Concord Center

Qualifications:

- Doctoral degree in Psychology and successful completion of an APA accredited internship
- Training in evidence-based treatment—e.g., cognitive behavior therapy, exposure and response prevention, parent child interaction therapy, dialectical behavior therapy, acceptance and commitment therapy, motivational interviewing
- Experience using these treatments to address anxiety disorders (social anxiety, GAD, panic disorder, specific phobias), OCD, and related mood disorders
- Preferred experience providing clinical care to children and/or adolescents, along with adults
- Eligible to work in the United States

To apply please email cover letter, CV, and 3 references to Dr. Benjamin Banister:
